

THE  
**Studio**

**VENUE HIRE**

at Snibston Colliery Park

## THE Studio

The Studio is conveniently located between the Colliery Café and Century Theatre in Snibston Colliery Park. With linked indoor walkways it's a highly versatile and vibrant space. Designed with functionality in mind, the studio benefits from flexible staging and drapes to create a variety of spaces and integrated tech to support a wide range of audio and visual needs. Privately situated, the full width windows maximise natural light across one side and the neutral colour scheme creates a blank canvas, making it suitable for a variety of events and activities.

Dedicated for hire throughout the day and evening, 7 days a week, there's plenty of flexibility for arts event organisers, dance workshop leaders and wellbeing instructors to consider our multi-purpose studio for their groups. Not too big, not too small but just right, The Studio is the perfect host for talks and presentations, club meetings and hobby groups. It's at the heart of Snibston Colliery Park's vision to offer a welcoming and inclusive community destination.

Already a much-loved space for Century Theatre's Academy programme, like a lot of hidden gems we're keen to be found and we warmly invite you to discover what's on offer.
